OBSERVATION

I am searching for a demanding IT internship to utilize my technical skills in computer science and contribute to the success of the organization. My aim is to boost my professional development, enhance skills in a dynamic setting, collaborate with a diverse team, explore new horizons, stay updated on industry trends, and contribute to personal growth and organizational objectives.

PROJECTS

[Portfolio Website\(Web Development Technology\)](#)

Languages used: React, HTML, CSS, JavaScript, Nodejs, Libraries

- This portfolio aims to Developed a heavy website using react framework to give user a light weight experience without compromising the animations and backend performance using various libraries in framework.

[Campgrounds Farms Website \(Full Stack Development\)](#)

Languages used: HTML, CSS ,JavaScript,EJS, Bootstrap, MongoDB, Express ,Node.js

- Building a campground website similar to that of Oyo or Airbnb, we will be able to add or modify campground details, such as photos, location, and price/day, as well as allowing users to review the campgrounds and rate them (5-star rating system)

[Password Checker \(Python\)](#)

- The project is designed to evaluate the strength of our passwords. When you input a password, the system analyzes it and provides feedback on its robustness. However, if the password is weak or inadequate, the system will advise you to change it for better security. This ensures that our digital information remains protected and reduces the risk of unauthorized access.
